Health Issues in the Black Community

3rd Edition

Editors: Ronald L. Braithwaite, Sandra E. Taylor and Henrie Treadwell

"This book should be required reading for anyone committed to the goal of eliminating disparities in health."

-David Satcher, M.D., Ph.D., Former 16th Surgeon General and Director, Satcher Health Leadership Institute at Morehouse School of Medicine

"Eliminating health disparities must be a central goal of any forward thinking national health policy. Health issues in the Black Community make a valuable contribution to a much needed dialogue by focusing on the challenges of the Black Community."

-Marc Morial, Esq., President, National Urban League

"*Health Issues in the Black Community* illuminates comprehensively the range of health conditions specifically affecting African-Americans, and the health disparities both within the black community and between racial and ethnic groups. Each chapter, whether addressing the health of African-Americans by age, gender, type of disease, condition or behavior, is well-detailed and tells an important story. Together, they offer practitioners, consumers, scholars and policymakers a crucial roadmap to address and change the social determinants of health, reduce disparities and create more equal treatment for all Americans."

-Risa Lavizzo-Mourey, M.D., M.B.A., President, Robert Wood Johnson Foundation

"I recommend *Health Issues in the Black Community* as a must read for anyone concerned about the future of African-American community. Health Disparities continue to be one of the major issues confronting the black community. This book will help to highlight the issues and keep attention focused on the work to be done."

-Elsie Scott, Ph.D., President of the Congressional Black Caucus Foundation

"This book is the definitive examination of health issues in black America – issues sadly over-looked and downplayed in our culture and society. I congratulate Drs. Braithwaite, Taylor and Treadwell for their monumental book!"

-Cornel West, Ph.D., University Professor, Princeton University
